

Amirah and  
Jamie's Garden

# September

## Checklist

- Remove dead or dying plants
- Amend soil in garden beds and pots
- Order growing supplies such as potting soil, fertiliser and seeds
  
- Clean, sharpen and oil tools
- Check irrigation is working correctly
- Clean and sterilise pots and trays to prevent disease
  
- Keep August sowings well watered and shaded
- Add mulch to conserve water and protect roots
- Check our growing calendar to learn which seeds to sow this month
  
- Pot up August sowings when roots begin to show at the bottom
- Cut back herbs to encourage new growth
- Harvest summer grown fruit and vegetables such as melons & watermelons
  
- Turn unfinished compost
- Harvest finished compost
- No compost pile? Check our blog posts to start your own now!

Happy Growing,

Jamie & Amirah
